

# WELCOME TO BK9

## Information Guide

### **TRAIN. BOND. TRUST.**

**Behavioural Excellence, Advanced Obedience & Purpose-Driven K9s**

### **The BK9 Standard**

*Led by Becky Annah | 16+ Years of Canine Behaviour Modification, Aggression Rehabilitation, and International Performance Obedience*

At BK9, we do not believe in a one-size-fits-all approach. For over 16 years, I have dedicated my career to complex behaviour modification and high-level obedience. Whether you are navigating severe behavioural challenges or looking for an elite working partner, my goal is to build a foundation of clear communication, trust, and mutual respect.

**Becky & Vykor:** *Serving as an international instructor and lead aggression specialist at an intensive 5-day European training camp. Vykor operated strictly as a high-performance demonstration K9, flawlessly executing 4-5 elite bite, strike, and advanced obedience control routines daily—operating at a level of stamina, precision, speed and drive rarely seen in the working K9 space.*

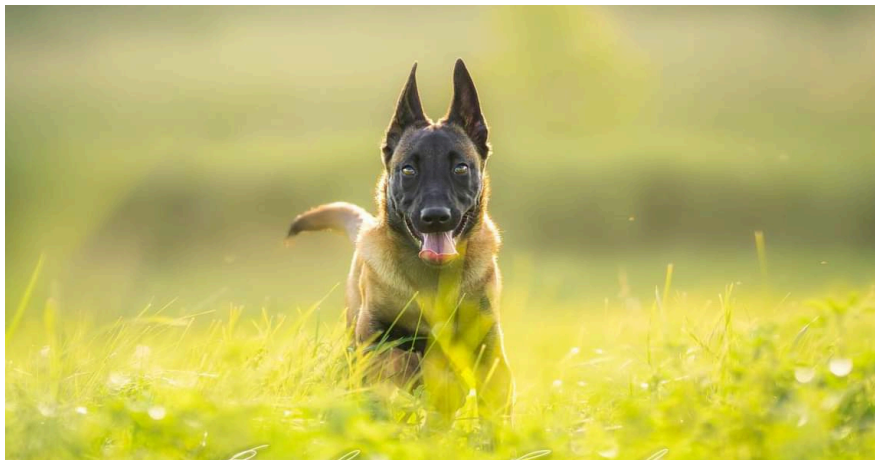

Through our Behaviour Channeling philosophy, we don't simply suppress unwanted actions; we tap into your dog's natural genetics and drives, channeling them into productive, reliable, and safe behaviours.

Our Core Specialties:

- Severe Reactivity & Aggression
- Advanced Obedience & Off-Leash Training
- Puppy Development & Foundation Building
- Working K9s (*Property & Business Protection*)

### **Premium Service: The BK9 Puppy Raising Program**

*Finding the right dog for your lifestyle or working needs is the most critical decision you will make. Through my established network of high-quality, ethical breeders, I offer a tailored sourcing and development program.*

Rather than navigating the uncertainties of an unproven temperament, you invest in a dog that is hand-selected and professionally raised to suit your specific goals.

*Sourcing:* Through my established network, we match you with a genetically sound, purpose-bred dog from trusted outlets.

*Development:* We manage every phase of the dog's early development. From critical sound desensitization and environmental conditioning, straight through to advanced obedience and strategic drive-building, BK9 ensures your dog is fully prepared before transitioning to you.

*The Result:* A balanced, capable, and confident canine partner, whether you require dedicated property protection, a specialized working dog, or an active family pet.

(Inquire directly for consultation and investment details regarding this specialized program).

### **Premium Service: Working K9 & Business Asset Protection**

*Elite security solutions for businesses, industrial sites, farms, and high-value properties.*

Safeguarding your livelihood and physical assets requires more than just a visual deterrent; it requires a highly capable, clear-headed canine professional. BK9 provides custom-developed

protection dogs designed to secure your property without the liability of an unstable temperament.

**Working K9 Deployment:** *Securing high-value assets and providing active threat deterrence for commercial fishing premises.*

- **Consultation & Site Evaluation:** *We begin with an in-depth Threat Risk Assessment of your property and facilities. You will also consult with our partnered Security Assessment Specialist—with extensive high-level tactical security experience—to comprehensively evaluate your specific environmental risks before we select your K9.*
- **Sourcing & Matching:** *Through an exclusive partnership with an elite police, military, and working K9 outlet, we source and pair you with a genetically sound, purpose-bred dog from trusted European lines that is specifically suited to your operational needs.*
- **Development & Handover:** *Your dog undergoes rigorous conditioning in threat assessment, territorial boundary enforcement, and advanced obedience. The K9 is delivered fully prepared, complete with included handler training sessions to ensure seamless integration.*
- **Ongoing Support:** *To maintain your K9's elite capabilities long-term, we offer tailored recommendations, advanced handler coaching, and ongoing maintenance programs as needed.*
- **The Result:** *A formidable, perfectly balanced security asset that neutralizes threats while remaining safe and entirely manageable under your command.*

*(Inquire directly to schedule your Site Security Evaluation and discuss investment details).*

### **Core Service (Pet & Working): Behaviour Modification & Obedience**

*For clients seeking expert behaviour modification, aggression rehabilitation, reliable recall, or advanced training for their current dog.*

**Phase 1: The Initial Assessment (Your Roadmap)** For all behaviour modification and obedience clients, our journey begins here. Giving a blind estimate without evaluating the dog is a disservice to both you and your pet.

**The Evaluation:** We assess your dog's genetics, triggers, learning style, and environment. You walk away with a clear, professional roadmap and a concrete breakdown of training options.

**The Evaluation Categories:**

- **Puppy Development Assessment (6 months & under)**
- **Standard Behaviour & Advanced (off-leash) Obedience**
- **Intensive Aggression & Extreme Behaviour Assessment:** *This specialized evaluation requires a deeper behavioural analysis, extended time, and strict safety protocols.*

**The Guarantee:** This is a standalone consultation. There is absolutely no obligation to commit to a long-term program afterward. My priority is giving you honest answers and a path forward.

**Becky with Louie (left or top)**—Despite a background in advanced obedience, Louie's owner felt entirely trapped by his increasingly unpredictable behaviour. When he arrived for his board-and-train, he exhibited severe human aggression, actively lunging at the faces of my partner and me. By establishing strict structural boundaries and **strategically channeling his intense drives into productive outlets, we completely modified his trajectory.** Today, he has fully completed his rehab program and is flourishing as a champion in rat-sports.

**Becky with Tank (right or bottom)**-Tank required highly tailored intervention to overcome a terrible start to life. We successfully rehabilitated him to neutralize his severe reactivity around other dogs and humans. His transformation was so profound that it inspired a dedicated online fan page of supporters. Even more incredibly, **witnessing his life-changing journey inspired both his rescue organization and his eventual adopter to pursue their own careers in professional dog training.**

**Phase 2: Specialized One-on-One Coaching** Following your assessment, we will design a coaching plan that is ethically sound and most comfortable for your dog's learning capabilities.

- **The Process:** Highly recommended as the most effective approach for advanced training such as recall, behavioural modification, especially for nervous, anxious, or reactive dogs. Working

together allows us to build trust and equip you, the handler, with the mechanics and timing to succeed long-term.

- **The Investment:** Our programs are highly individualized, we do not offer generic, one-size-fits-all packages. Following your Phase 1 Evaluation, you will receive a customized training proposal outlining the exact number of sessions needed and the total investment for your dog's specific needs and lifestyle.

**Guest Instruction at CK9C (Ontario):** *Becky serving as a special guest instructor during a specialized protection and obedience workshop. BK9 is invited annually to teach advanced drive development, reward protocols, and elite obedience for both functional and sport K9s.*

## The BK9 Client Expectations

To provide the highest level of specialized care, we maintain strict professional boundaries to protect our time and your investment.

- **Securing Your Spot:** An assessment appointment is only officially booked once the evaluation and travel invoice is paid in full.
- **Invoice Validity:** Due to high demand, invoices for scheduling are valid for 24 hours. If left unpaid, the time slot is released to the next client.
- **The Partnership:** True behaviour modification is a team effort. I will provide the expertise, the mechanics, and the roadmap; ***your success will depend on your consistency at home.***

**Ready to get started?** To provide the highest level of specialized care, all prospective clients must begin by completing our comprehensive online evaluation questionnaire. Whether you are seeking expert behaviour modification, inquiring about our elite Puppy Sourcing program, or require a custom-developed Working K9, this form allows us to understand your specific needs.

Once submitted and reviewed, we will reach out to schedule your Phase 1 Assessment or direct consultation.

Thank you for considering BK9!
